

CFR part 205) and who is not a split operation shall be exempt from the payment of assessments. That importer may submit documentation to the Board and request an exemption from assessment on 100 percent organic fresh and frozen blueberries—on a form provided by the USACBC—at any time initially and annually thereafter on or before January 1 as long as the importer continues to be eligible for the exemption. This documentation shall include the same information required of producers in paragraph (d) of this section. If the importer complies with the requirements of this section, the USACBC will grant the exemption and issue a Certificate of Exemption to the importer. The USACBC will also issue the importer a 9-digit alphanumeric Harmonized Tariff Schedule (HTS) classification valid for 1 year from the date of issue. This HTS classification should be entered by the importer on the Customs entry documentation. Any line item entry of 100 percent organic fresh and frozen blueberries bearing this HTS classification assigned by the USACBC will not be subject to assessments.

(f) The exemption will apply immediately following the issuance of the Certificate of Exemption.

(g) Agricultural commodities produced and marketed under an organic system plan, as described in 7 CFR 205.201, but not sold, labeled, or represented as organic, shall not disqualify a producer from exemption under this section, except that producers who produce both organic and non-organic agricultural commodities as a result of split operations shall not qualify for exemption. Reasons for conventional sales include lack of demand for organic products, isolated use of antibiotics for humane purposes, chemical or pesticide use as the result of State or emergency spray programs, and crops from a buffer area as described in 7 CFR part 205, provided all other criteria are met.

(h) On receipt of an application, the USACBC shall determine whether an exemption may be granted. The USACBC then will issue, if deemed appropriate, a certificate of exemption to each person who is eligible to receive one. Each producer who is exempt from

assessment must provide an exemption number to the first handler in order to be exempt from the collection of an assessment on blueberries. First handlers and importers, except as otherwise authorized by the USACBC, shall maintain records showing the exemptee's name and address along with the exemption number assigned by the USACBC.

(i) Importers who are exempt from assessment shall be eligible for reimbursement of assessments collected by the U.S. Customs Service and shall apply to the USACBC for reimbursement of such assessments paid. No interest will be paid on assessments collected by the U.S. Customs Service. Requests for reimbursement shall be submitted to the USACBC within 90 days of the last day of the year the blueberries were actually imported.

(j) Any person who desires an exemption from assessments for a subsequent fiscal year shall reapply to the USACBC, on a form provided by the USACBC, for a certificate of exemption.

(k) The USACBC may require persons receiving an exemption from assessments to provide to the USACBC reports on the disposition of exempt blueberries and, in the case of importers, proof of payment of assessments.

If it is found by the USACBC that any such program, plan, or project does not contribute to an effective program of promotion, research, or information, then the USACBC shall terminate such program, plan, or project.

(d) No program, plan, or project including advertising shall be false or misleading or disparaging another agricultural commodity. Blueberries of all origins shall be treated equally.
